

Use Facts to Address Worries

Appreciation Went Into Overdrive Historically, homes have appreciated at a rate of about 5 percent per year. In the six years between 2000 and 2006, however, appreciation was 89 percent, or nearly 15 percent per year on average. Today's correction is a move back to stability.

1980 - 1985	25%
1985 - 1990	27%
1990 - 1995	25%
1995 - 2000	29%
2000 - 2006	89%

Lots of Listings = Depressed Prices Although many factors affect pricing, in a down market, excessive inventory becomes a key driver.

The Stages of a Market Cycle You've heard of Elisabeth Kubler-Ross's stages of death and dying? Well, the stages of a market cycle aren't that different. Today's market is still trying to work its way back to hope.
